

CRACK REPAIRING WITH CRACK FILL PASTE

Expansion & Other Structural joint filling with CRPS-99.

DESCRIPTION OF CHEMICALS

Engineer plus Crack Fill Paste is a ready to use fiber glass reinforced crack filling compound for both interior and exterior surfaces. It ensures unmatched crack bridging ability for plaster cracks of up to 3 mm.

APPLICATION PROCESS

1. Clean the surface by rubbing with wire brush to remove dust, and others. Wash with clean water.
2. First we have to fix these cracks with the help of grinder. We open these cracks and bring them to V groove shape.
3. Now we pour Aquaprime-99 into these cracks. till saturation.
4. After this we will fill crack fill paste in these cracks
